

GLOBAL HOSPITAL

॥ सर्वे सन्तु निरामयाः ॥

A division of
Global Long Life Hospitals & Research Pvt. Ltd.

A photograph of a modern, multi-story hospital building at night. The building is illuminated from within, and the sky is a deep blue. The words "GLOBAL HOSPITAL" are prominently displayed in large, blue, sans-serif capital letters on the upper facade of the building. The building has a clean, white exterior with dark window frames. In the foreground, there are some blurred lights and a small tree, suggesting an outdoor setting.

GLOBAL HOSPITAL

Vision

With increased ability, technological advancement and extensive presence, our Vision is to exterminate the gap of implementing global standards of treatment protocols in India.

Mission

Our Mission is to grow as an innovative institution with stringent treatment practices and serve with uncompromised dedication and precision. We commit to become the world leaders in healthcare services.

The Cover Story

A doctor by profession with a zest of entrepreneurship was moved by the plight of medical services available at the local areas. Inspired to serve all fellow humans irrespective of their socio-economic status Global Hospital was brought to inception to strengthen regional health care services and was managed by Global Longlife Hospital and Research Pvt. Ltd.

PHARMACY

EMERGENCY

The Management

Dr. Anant Yadav Chairman & Director

Technological advancement has increased our ability to learn and adopt newer ways to beat the ever increasing number of ailments across the globe. India, though has always been keen and open to new practices faces a huge gap when it comes to implementing global standards of treatment protocol.

As mentioned earlier, at Global Hospital we intend to grow as an innovative institution with stringent treatment protocols and serve with uncompromised dedication and precision. We boldly dream of India being the world leader in healthcare services.

Mr. Suresh Jani Founder & Managing Director

We are committed to achieve certain basic quality of life for all, irrespective of their social or economic status. Our teams of medical experts are on their toes to provide the best curative and rehabilitative care for relief of pain, prevention of disability and early return to work and restore normalcy with minimal disruption.

With this clear objective we have strengthened the regional medical services thus providing life to the vision of Global Hospital (Managed by Global Longlife Hospital and Research Pvt. Ltd.)

Dr. Shaila Yadav Director

We intend and try our best to provide careful attention to each and every individual at Global Hospital. We are convinced that our programs and facilities provide the optimum healthcare for you and your loved ones with the right effort and at the right time.

We have tried to provide a glimpse of our work, culture and vision here in this booklet by writing a brief about our facilities and services.

We promise to meet the healthcare needs of all and will do our best to meet and precede the expectations set by ourselves. We are on a mission to be recognised as a leading giant of healthcare service provider in the region and across the globe.

A full Continuum of Health Care

From OPD to Internal Medicine, and Home Health Care to General Surgery and Orthopedic Surgery, Global Hospital delivers the services you need right here. The Hospital is comprised of a talented group of multi-specialty healthcare specialists and a skilled team of nurses. Each member of the care team strives to meet his or her patient's medical needs while remaining compassionate and sensitive to the patient's emotional needs as well.

Each of our services and facilities has been designed to provide best medical support and healthcare services to our approaching patients. The key aspects that speak of Global Hospital as one of the best in class hospitals are:

- Intensive Care Unit
- Neonatal Intensive Care Unit
- Operation Theatres
- OPD for all super specialty services
- Trauma Centre
- Joint Replacement Centre
- Cardiac Centre
- Neurology Department
- Nephrology Department

Intensive Care Unit (ICU)

We value life. To provide the best care to our patients who need maximum attention, our ICU are all equipped with the best facilities possible. Below are few highlights to provide a glimpse of the available infrastructure:

- Fully equipped ICU beds with central monitoring & overhead panels
- Trained and qualified staff completely dedicated 24X7 for patients in ICU
- 2:1 patient and staff ratio for maximum attention
- Mobile ICU ambulance with advance & basic life support system
- Zero infection policy & “Golden Hour” concept for emergency care

Neonatal ICU

The birth of a baby is a wonderful yet very complex process. Many physical and emotional changes occur for mother and baby. A baby must make many physical adjustments to life outside the mother's body.

The members of our NICU team work together with parents to develop a plan of care for high-risk newborns. We offer an array of advanced equipment and sophisticated services that allows us to care for infants with complex or unusually severe problems that challenge the resources of other centres.

Operation Theatres

With 24 X 7 service facility fully equipped with all required machineries and equipments of international standards (Laparoscopy set with camera, Neuro Microscope etc.) at Global Hospital we host operation theatres that are best in class and support all kinds of surgery under the same roof. Mentioned list reveals our capacity to conduct in-house surgery.

- General Surgery
- GI
- Heart
- Neuro
- Gynecology
- Bariatric
- ENT etc.

OPD for all Super Specialty Services

Our well organized OPD has been designed and structured for smooth functioning and minimum waiting time for our patients. We have OPD services for all specialty areas under the same roof.

Our well manned and managed front desk is at the service of our patients who seek an appointment or any other assistance. We make sure to maintain 100% accuracy, efficiency and confidentiality for all those who reach us.

Cardiac Centre

We offer patients with an ethical and open environment to recover. Our team of experts does an in-depth analysis of the patient's health condition taking into account his/her complete medical history, therefore strategizing a tailored treatment and cost-effective recovery plan for each.

The treatment facilities at the centre are further strengthened by the high coordination between departments. Our high-end operation theatres along with Advanced Heart Lung machine & IABP provide the best infrastructure for Bypass & other cardiac surgeries in the city. The Cardiac Centre at the Global Hospital helps the patient conduct specific diagnostic tests to get to the roots of the problem to enable the best medical practice in the interest of the patients.

- Renal & Coronary Angiography
- Renal & Coronary Angioplasty
- Electrophysiology (EP) Study
- ASD / PDA / VSD Device closure
- Carotid Interventions
- Pacemaker & Implantable defibrillator procedures etc.

The mentioned list is only a few of the gamut of services the department is capable of making available to its patients.

Nephrology

The Department of Nephrology is one of the most advanced units. The department is backed by its state-of-the-art equipment and the facility is dedicated to deliver total renal care to all its patients.

The doctors are highly qualified and specialized to provide the necessary care and treatment required by patients suffering from various kidney ailments including general nephrology, dialysis and kidney transplants etc.

Neurology

This department of Global Hospital is designed to provide the highest levels of professional expertise in all disciplines of neurosciences/neurosurgery through an integrated team of neurologists dedicated towards providing total patient care.

Neurology is the medical specialty which focuses on the diagnosis and treatment of diseases and disorders of the brain and nervous system. A physician who practices neurology is called a neurologist.

Neurologists treat stroke patients, as well as patients with epilepsy, Parkinson's disease, and hundreds of other neurological issues, some of which are acute, others of which may be ongoing, or chronic.

Trauma Centre

Trauma is any physical damage to the body caused by natural disasters, violence, accidents, burns, drowning etc. The trauma centre at Global Hospital holds fair capacity to provide comprehensive emergency medical services to patients suffering from traumatic injuries.

We host a team of specialized surgeons, neurosurgeons and all other medical professionals dedicated to serve such patients. Our equipments and facilities for immediate or follow-up treatments are available round the clock with zero down time

Joint Replacement Centre

Joint problems like arthritis and many such problems are not reserved for the elderly anymore. Traumatic sports injuries cause severe pain and movement difficulties for those who are active. A branch of our Department of Orthopedic Surgery is the Joint Replacement Centre.

We provide specialized surgical services for treating conditions of the hip, knee, shoulder etc. Our goal is to help each patient with a treatment plan best suitable for his/her condition to enable fastest recovery and return to normalcy. We are committed to provide highest quality care to our patients.

International Patients

Medical tourism or Health Travel is provision of 'cost effective' private medical care in collaboration with the Tourism Industry for patients requiring specialized medical treatment. In the current era Medical Tourism is fast shaping up as a common form of vacationing, and covers a broad spectrum of medical services. A combination of many factors has affected the popularity inspiring many to choose Global Hospital as their partner to provide a route to the final destination of wellness.

Some of the prominent reasons are clubbed to highlight the reasons for the preference of choice:

- In-house team of highly skilled and qualified team of consultants sharing the right medical advice
- Multiple centres of excellence dedicated for the ease of foreign guests
- Higher success rates for complicated surgeries
- Treatment to Recovery to Follow up to Tourism – All needs taken care
- Visa & Travel assistance as required

We are not GOOD enough----- WE ARE THE BEST

With ever increasing list of diseases and humans trying head over heels to make the utmost effort to combat them with their exponential ability, we join hands with our medical experts to provide the best of everything. We at Global Hospital no more believe in the word GOOD SERVICES

We have dedicated to settle for nothing less than the BEST. Few noteworthy pointers should clear the air, needless to say that these mentioned are only a few of the best facilities provided:

- The facilities comprise of the most updated and innovative technologies to provide the most advanced treatment
- Teams with the most experienced and qualified professionals
- Providing the best location by choosing to be centrally located, within 100 metres of the most easily approachable area of the city (Ahmedabad)
- Centrally air-conditioned for maximum comfort of patients
- Spacious rooms ranging from Suite, Deluxe, Special, Semi-special, Economic etc.
- Best in class isolation beds, ICU beds, Dialysis beds and Neonatal ICU
- Advanced Cathlab installed for the 1st time in the state of Gujarat and Neuro-Microscope installed 1st time in Asia apart from other facilities like 4D Sonography, high frequency digital X-Ray etc.
- Parks a 24x7 ICU on wheels and a 24x7 Pharmacy
